CCRS Postal Matches 2024 to 2025: Overview

'All cadets aged 12 and over should be given the opportunity to shoot. The degree to which shooting forms a compulsory part of the syllabus is a matter for individual Services. Cadets should also be given the opportunity, the training, the equipment, and the facilities to become excellent competitive shots in the discipline of their choice.'
JSP 814 Pt 1 (V3.0 Jan 22) – Policy and Regulations for MOD Sponsored Cadet Forces, p 15-3 Shooting Policy §15.9.3.

The CCRS Postal Matches cover all the rifles systems in use within the British Cadet Forces. They are broken-down into two groups.

The Commonwealth Matches are covered by the first part of this handbook (pages 1-15) and run 01 April to 31 March annually.

The second half of the handbook (pages 16-25) includes the remaining .22 smallbore matches which run from 01 September to 31 March.

1. The Commonwealth Matches: Summary

The Commonwealth Matches, also known as the CCRS Non-Central Postal Matches, are a series of matches managed by CCRS, open to cadet units of Commonwealth countries.

1.1 The following matches, all for teams of four firers, make up the Commonwealth Matches:

- a. Match A (The Ffennell). A sporter shoot using any bolt action smallbore rifle, prone. Forty shots fired at four NSRA 10 BM/89-18 series cards at 15, 20, 25 yards, or 25m.
- b. Match B (The Ffennell). The L144A1 smallbore rifle, or as issued, prone. Twenty shots fired at two NSRA 10 BM/89-18 series cards at 15, 20, 25 yards, or 25m.
- c. Match C (The Jeudwine Cup). The L81A2 fullbore rifle, or as issued, prone. Two convertible sights and seven to count at 300 and 500 yards/m.
- d. Match D (The Earl Roberts). The L98A2 or as issued.
- e. Match E (The Montgomery of Alamein). The L98A2 or as issued.
- f. Match F (The BSA Silver Trophy). Any .177 calibre air rifle, prone. Twenty shots on four NSRA cards at 6 yards/5.5m.
- g. Match G (The Newcombe Cup). Any .177 calibre air rifle, three position. Five shots kneeling (one card), five shots prone (one card), ten shots standing (two cards) (in that order) at 10m.
- h. Match H (The President's Challenge Cup). The L85 DCCT system.

1.2 **Team eligibility.** Teams must be formed from cadets belonging to the same unit, squadron, battery, company or equivalent. All team members must be under 19 on the day that they fire their final card in the Match. A cadet may not fire for more than one team in the same Match; if he/she transfers between units they will be eligible to continue to be a member of their original team.

1.3 **Specific rules for each competition.** Rules for each individual competition are in this handbook and posted on the CCRS website.

1.4 **Entries.** Online entry forms will launch on 01 April. All entries are to be submitted via the CCRS website. All cards are to be returned by 31 March the following year.

10. CCRS Cadet Forces' .22 Team Competition (The Country Life)

10.1 The CCRS .22 Team Competition (formerly known as The Country Life/Eley) is a team competition for all CCF, SCC, VCC, ACF and RAFAC units. Entry to the competition is £10. Shot in two classifications, Class A (any .22 bolt action target rifle) Class B (L144A1).

10.2 **Entries.** Entries must be received by 16 Dec. The competition may be fired from 16 Jan. Targets must be posted to the Judge with a postmark no later than 21 Mar to ensure they reach him by first post 01 Apr.

10.3 **Teams.** Teams are four firers, plus a leader, who must be on the contingent strength of the unit when the entry is made. If a cadet moves unit, they may continue to fire as part of the team. The leader may participate as follows:

- a. Fire in Series 1 to 3 as part of the four and lead Series 4; a fifth firer should shoot in Series 4.
- b. Lead Series 4 only.

When a unit enters two or more teams, no member of any team may shoot or act as leader in any other team once shooting has started.

10.4 **Course of Fire.** The match is fired in four Series, in the prone position, as detailed 10.13 'Match Conditions'.

10.5 **Rifle.** Class A: Any .22 Bolt action target rifle, conforming to NSRA regulations. Class B: The L144A1 Cadet Smallbore Target Rifle (CSBTR) as issued, with issued sights. Sights may not have a lens fitted, but competitors may wear corrective glasses.

10.6 **Clothing and Equipment.** Shooting jackets and slings are permitted. Rests may not be used and the forearm, hands, rifle and sling must be clear of the ground or any support. All other clothing and equipment is as per the NSRA rules, see Annex A for details.

10.7 **Ammunition.** Issued ammunition must be used.

10.8 **Targets.** The following targets are to be used:

10.8.1 **Series 1, 2 and 3.** Order through Sykes Global Services Ltd, tel 01896 754866 or email targets.ukgal@sykes.com with 'Country Life' in the subject. They sell the Bisley Double (The 200/25 yards Bisley 1972/73 target) and Snap (The WO No.32 200/20 snap shooting disc) targets which are required for these series. Costs are approximately £21 per 100 targets plus VAT and delivery, though smaller quantities are available on request. Incorrect or photocopied targets will not be scored.

10.8.2 **Series 4.** Landscape Targets will be sent to the units' HQ (SCC and ATC – service HQ, ACF and CCF – Brigade HQ) and will be brought by the Supervising Officer (SO) on the day of the shoot.

10.9 **Labels and Target Identification.** Sticky labels will be brought by the SO to be fixed behind bulls on the targets used for Series 1 to 3 before they are fired. One label goes on the grouping target, one behind one of the bulls of the rapid target and one behind the snap target. No labels are required for the Landscape target. The name and rank of each firer must be written on the front of each target in Series 1 to 3.

10.10 **Supervising Officer.** A Supervising Officer must be appointed. They will be responsible for ensuring that the match is fired according to the rules and will bring the landscape target and labels to the range. Unit officers should liaise with their HQ to ensure that an SO is available on the date they intend to fire the competition.

Where the match conditions require an order from the SO, the RCO or other supervisor may give the order in their place as long as the timings are controlled and confirmed by the SO. At the end of the shoot the SO is to complete the score card with their details.

An Adult supervisor from the Unit must give every assistance to the SO and ensure that the targets are

posted in due time. This person may request the SO to hand over the targets in a sealed and signed envelope at the end of the shoot.

10.11 **Scoring of Targets.** No target is to be scored, gauged, or interfered with in any way by the unit or SO. Once fired, the SO or the unit adult supervisor is to post the targets and the backing sheets used in Series 3 to the Judge.

Results will be published on the website as soon as possible after all targets have been scored and become final seven days later.

10.12 **Prizes.**

1st The Green Howards "Country Life" Trophy and five CCRS gold medals

2nd An inscribed CCRS Shield and five CCRS silver medals

3rd Five CCRS bronze medals

Special Prizes a) An inscribed CCRS shield for the top Community Cadet Team
b) The Gordon Winter Silver Salver and five CCRS bronze medals for the top unit second team not in the first three places

10.13 **Match Conditions.**

10.13.1 **Series 1 - Grouping**

Target. Half a 'Bisley double' target per firer plus a similar sighting target

No. of shots. Two sighting shots plus five to score, per firer.

Scoring. By making a circular group around all shots, irrespective of their position on the target. Points are awarded for groups inside or touching a circle of diameter, in inches, as follows:

0.5 inch	25 points
0.75 inch	20 points
1 inch	15 points
1.5 inch	10 points
2 inches	5 points
Over 2 inches	0 points

Targets with fewer than five shots will score zero.

The dimensions above assume a range of 25 yards or metre. The scoring rings will be proportionately smaller for 20 yard ranges.

Conditions.

After the sighting shots, which may be coached, a further five shots are to be fired at the match target. There is no time limit.

The number on the firing line for the first three series can be decided by the Supervising Officer.

Firers will be allowed to see their targets after Series 1, 2 and 3 and are permitted to adjust their own sights at their own discretion without any assistance, verbal or physical, from anyone.

10.13.2 **Series 2 - Rapid**

Target. One 'Bisley Double' per firer.

No. of shots. Ten per firer (five per diagram). No sighting shots.

Scoring.	Bull	4 points
	Inner	3 points
	Magpie	2 points
	Outer	1 point
	Outside the outer	zero points

If fired at 20 yards a proportionately smaller overlay will be used.

Conditions.

The team must be on the firing point with the butt of the rifle touching the ground. Firers may hold a round in their hand but it must not touch the rifle.

The supervising officer (SO) will order 'Load' followed five seconds later by 'Go on'.

Seventy-five seconds after the 'Go on' command has been given the SO will order 'Stop'. No time indication is given between 'Go on' and 'Stop'.

The SO is to write on each target the number of shots fired.

If a shot or shots are fired before the command 'Go on' or after the command 'Stop' the target must be annotated accordingly by the SO. The highest scoring shot(s) will be disallowed by the Judge.

Should a member of the team place more than the necessary number of shots on either diagram, a penalty of one point will be imposed for each shot in excess.

Misfires (where the round has been struck but no detonation has occurred) may be replaced and a further six seconds per round allowed.

10.13.3 **Series 3 - Snap**

Target. One 'Snap' target per firer, with a backing sheet behind.

No. of shots. Five per firer. No sighting shots.

Scoring.	Shots touching a 0.5inch ring	6 points
	Shots touching a 1.5inch ring	5 points
	Shots outside a 1.5inch ring	zero points

The dimensions above assume a range of 25 yards or metres. The scoring rings will be proportionately smaller for 20 yard ranges.

Conditions.

The team must be on the firing point with the butt of the rifle touching the ground. Firers may hold a round in their hand but it must not touch the rifle.

The SO will order 'Load'. Five seconds after the 'Load' has been given the targets will be made available to be fired on for a period of three seconds. This may be indicated by a blast on a whistle or a verbal command (e.g. 'Up', 'Down') or by a turning target if available.

There will be four additional 3 second exposures, with a random delay between exposures of 5 to 20 seconds.

If a shot or shots are fired before the command 'Load' or the indication that targets are available, or after the indication that targets are not available, the target must be annotated accordingly by the SO. The highest scoring shot(s) will be disallowed by the Judge.

Misfires may be replaced and extra 3 second exposures given.

The SO is to write on each target the number of shots fired (not the number of hits) The backing sheets are to be sent with the targets.

10.13.4 **Series 4 - Landscape**

Target. The landscape target as supplied to Unit HQ by CCRS. The SO must ensure that the target is not seen by the team prior to the shoot taking place. The target is approximately 34 x 23 inches, and units should make provisions for securing it.

The target will have four objectives in the form of one-inch circles, visible through a telescope but not with the naked eye.

No. of shots. Two optional sighting shots may be fired before the Landscape target is displayed, following which sights may be adjusted.

Three scoring shots on the Landscape target per firer.

Scoring. Scoring is based on 1, 2 and 3 inch circles concentric with the objective, as follows:

Shots within or touching a 1 inch circle	10 points
Shots within or touching a 2 inch circle	7 points
Shots within or touching a 3 inch circle	3 points
Shots entirely outside a 3 inch circle	zero points

The dimensions above assume a range of 25 yards or metre. The scoring rings will be proportionately smaller for 20 yard ranges.

Conditions.

Firers may have two (coached) sighting shots before the Landscape target is displayed if they wish. After the two optional sighting shots have been taken, sights may be adjusted. They must not be changed after the match has started.

Teams of four - one firer shoots at each objective.

All firers and the leader must be present for the duration of the shoot, which must be completed 60 minutes from the time the landscape target is put up.

Once the target is mounted, the SO will instruct the leader to begin a preliminary study using an ungraduated telescope or binoculars. No other member of the team may use any aids to look at the target.

When the leader has completed the preliminary study, they may give a general description of the landscape to the firers but may not attempt to indicate the target circles. The SO will be advised by the leader when this is complete.

The SO will order the first pair or individual to the firing point. The procedure and timings for the shoot from this point are the same for each detail.

The leader will indicate, using word of mouth and no other means, where the objective is, by reference only to objects forming part of the landscape, e.g. 'Ground level of lone tree, go right four o'clock, you will come to a bush. Target is two thirds of the distance from the tree to that bush'

Once the leader is satisfied that the firer(s) have identified the objects they will order 'Go on'. Thereafter the leader may not give any other assistance.

A time limit of seven minutes applies from the start of the indication of the objective by the leader until the end of the shoot, for each detail. The SO will announce 'five minutes', 'six minutes' and 'Stop'. A further ten seconds per shot may be allowed for misfires or stoppages.

If a shot or shots are fired before the command 'Go on' or after the command 'Stop' the target must be annotated accordingly by the SO. The highest scoring shot(s) will be disallowed by the Judge.

11. The CCRS Smallbore Winter League

- 11.1 The CCRS Smallbore Winter League competition is open to cadets and CFAV and requires six cards to be fired per competitor by 31 Mar. For each target, competitors will have unlimited sighters following which they must fire ten scoring shots. The competition is open to CFAV and cadets from any CCF, SCC, VCC, ACF or RAFAC unit. Prizes are awarded for the following:
- a. Individual, as follows:
 - i. Open - all CFAV and cadets entered
 - ii. All CFAV
 - iii. All cadets
 - b. One team of four cadets from a unit, detachment, Sqn or school.
- 11.2 The entry form can found on the CCRS website; teams will receive scoresheets, witness and scorer declarations and labels for validating targets by return.
- 11.3 The match is fired under NSRA rules using any .22 bolt action rifle with iron sights, or the L144A1 with sights as issued. Clothing and equipment is as detailed in NSRA rules, see **Annex A**.

Annex A: NSRA Smallbore rules

Taken from the National Small-Bore Rifle Association Rules and Regulations (2017):
(<https://www.nsra.co.uk/index.php/home/reference/rules>)

- A1. **Slings.** A single point or a two point sling may be used.
- A1.1 **Single point sling.** The maximum sling width is 40 mm. The sling must be worn only over the upper part of the left arm and from there be connected to the fore-end of the rifle stock. No part of the rifle may touch the sling or any of its attachments except at the sling swivel or handstop.
- A1.2 **Two point sling.** A sling of maximum width 50 mm (2 in) is permitted.
8.6.2 Only one hook, loop, button or similar device may be fastened on the outside of the sleeve or shoulder seam on the sling arm to prevent the sling from sliding.
- A2. **Shooting gloves.** The glove must be made of flexible material and must not extend more than 50 mm (2 in) above the wrist measured from the centre of the wrist knuckle.
- A3. **Clothing.**
- A3.1 The use of strap-on elbow pads is permitted but not in addition to elbow padding which is affixed to the garment. The use of any special devices, means or garments which immobilise the shooter's legs, body or arms is prohibited.
- A3.2 All shooting clothing must be made of flexible material, including all lining, padding and reinforcements.
- A3.3 The shooting coat may have reinforcement patches of moderate size and thickness added only to the outside surfaces on the shoulder and on both sleeves. Reinforcements of such size and thickness as to form support for the shooter or rifle are prohibited. In no case must the elbow reinforcement be nearer to the end of the sleeve than 100 mm (4 in). Concealed padding is prohibited.
- A4. **Shooting mats.** That portion on which the elbow rests must be of uniform thickness not exceeding 50 mm (2 in) uncompressed. Firing point coverings such as waterproof groundsheets or coconut matting are not considered as personal mats but, for the purpose of Rule 8.12, the natural surface of such covering will be regarded as the firing point.
- A5. **Competitor's body.** In all positions, those portions of the competitor's body in contact with the ground must be entirely behind the front marked edge of the firing point.
- A6. **Prone.** The shooter may lie on the bare surface of the firing point or on the shooting mat. He may also use the mat by resting his elbows on it. The body is extended on the firing point with the head toward the target. The rifle must be supported by both hands and one shoulder only. While aiming, the cheek may be placed against the rifle stock. The rifle may be supported by the sling but the fore-end behind the left hand or any part of the rifle must not rest on the sling or its attachments. The rifle must not touch, or rest against, any other point or object. Both forearms and sleeves of the shooting jacket forward of the elbow must be visibly raised from the surface of the firing point. The shooter's sling (left) forearm must form an angle not less than 30 degrees from the horizontal, measured from the axis of the forearm.

Annex B: NRA Fullbore rules

Taken from the National Rifle Association Handbook (Bisley Bible) – Full 2020 Edition, Section 57:
(<https://nra.org.uk/wp-content/uploads/NRA-Handbook-2023-main-text.pdf>)

- B1. **Gloves.** A flexible padded glove or mitt may be worn on the supporting hand, provided it gives no artificial support. In addition, a lightweight glove, with (or without) one or more fingers cut off, may be worn on the trigger operating hand to protect against cold or sun/windburn.
- B2. **Wet weather clothing.** The competitor may wear wet weather clothing. It is permitted to place the rifle butt under a lightweight cape or poncho whilst shooting.
- B3. **Lenses.** Spectacles, eyeglasses or contact lenses may be used, and/or a prescription lens may be fitted in the backsight, provided that the correction is of a similar prescription to that which the competitor would use in everyday use. Permission to use such a lens, supported by a current optometrist's prescription, must be obtained in advance from the NRA. 207 In TR (Para 150), a magnifying lens is permitted in the foresight. If a magnifying lens is fitted in the foresight then only optically flat filters and/or a single prescription lens may be fitted in the backsight.
- B4. **Slings.** When using TR, MR including Any Rifle, CTR, F Class, SR or GP rifles a sling may be attached to assist in steadying the rifle. The sling must be attached to the rifle at one or two points, and it must not exceed 2" in width. The sling may not be used or configured in such a manner that it (or its buckles or sling swivels) becomes a prop between the inside of the support elbow and the rifle stock. The sling may be placed round one arm and/or wrist but not round any other part of the competitor's body, except when using SR or Cadet GP rifle when it must be worn in accordance with military regulations.
- B5. **Screening.** A competitor may not screen himself or his firearm from the sun or weather, nor allow anyone else to do so (see Para 547). However a piece of soft material or an action cover may be used to cover the action, and adhesive tape may be stuck to the barrel or action. A mirage band may be used. Devices covering the action or acting to reduce the effect of mirage may be draped as the competitor wishes but may only be attached to themselves and/or the firearm.
- B6. **Mats.** A competitor may use a groundsheet, shooting mat or similar article, provided it is laid flat on the ground. Soft material may be placed under or on top of the mat as long as it does not provide artificial rest or support. Holes may not be made in the ground for the elbows. In Service Weapon and Cadet GP rifle matches a shooting mat may not be used
- B7. **Position.** Prone. The butt plate of the firearm must be placed against the shoulder or armpit. Elbows must be behind the line defining the forward edge of the firing point, which may be a notional line defined by the number pegs or other means as ordered by the RO. The muzzle of the firearm must protrude over the forward edge as defined, and must be well forward of the ears of neighbouring competitors. No competitor may adopt a position that causes inconvenience to the other competitors on his target.
- B7.1 TR. All parts of the rifle and sling and of the arms below the elbow, including clothing, must be visibly clear of the ground and of all other objects. The back of the forward wrist must be at least 4" (approximately the width of this book) clear of the ground, as measured from the outside surface of a glove if worn.
- B7.2 SR, CSR/PR, GP. The magazine may touch or rest on the forearm or on the ground. No part of the wrist of the supporting arm may touch the ground. If firing from cover, the structure of the cover may be used for support.
